

City of Auburndale

Land Use and Vision Plan

Community Workshop for “The Lakes District”

The City of Auburndale will be hosting a community workshop to ask for your input and ideas on the master planning of “The Lakes District”. This City is undertaking this in an effort to provide a vision for this part of the City & County over the next 10 to 15 years. This Land Use and Vision Plan is intended to address growth within this gateway area including elements such as land use, traffic, infrastructure, and parks.

The workshop will provide an overview of the District as part of a presentation as well as opportunities to provide your input through a series of interactive workshop activities. The goal is to use this information in the development of the Plan which will serve as the roadmap for the transition of this area while retaining Auburndale’s character.

Location: Auburndale Civic Center, 115 West Park Street, Auburndale

Meeting Date/Time: Tuesday April 23, 2019 from 6:00-8:00 PM

**There will be a brief presentation at 6:15 pm and 7:00 pm followed by interactive activities that you can participate in at your leisure; the presentations will provide the same information.*

For more info, contact Amy Palmer, AICP of the Auburndale Community Development Department

“The Lakes District” Land Use & Vision Plan currently encompasses approximately 4,600 acres for further analysis centered between Lakes Juliana, Mattie, Arietta, Van, Ariana, and Mariana. The Plan boundaries and acreage may be modified based on City and Stakeholder guidance. A map of the study area boundary is provided on the project website.
