

Public Notice: City of Auburndale The Lakes District Community Workshop

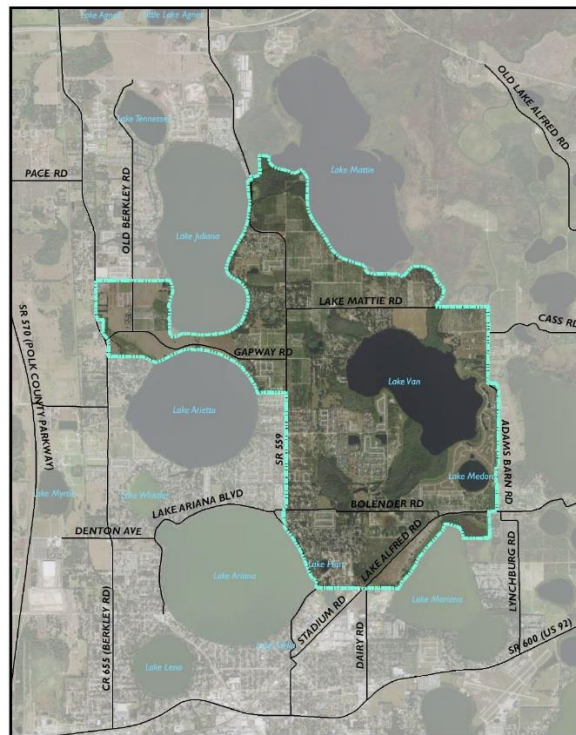

The City of Auburndale will be hosting a community workshop to ask for input and ideas for the implementation of The Lakes District Strategy and Vision. The map below depicts the area of The Lakes District.

The City has adopted The Lakes District Strategy and Vision to provide a vision for this part of the City & County over the next 10 to 15 years. The Vision Plan addresses growth within this gateway area including elements such as land use, traffic, infrastructure, and parks. The Vision will be implemented through a series of amendments to the City's Comprehensive Plan and Land Development Regulations.

The workshop will provide an overview of The Lakes District as well as opportunities to provide your input through a series of interactive workshop activities. The goal is to use this information in the development of Comprehensive Plan and Land Development Regulation Amendments, which will implement the Vision of The Lakes District.

Meeting Date/Time: Thursday, March 19, 2020 6:30 – 8:00

Location: Auburndale Civic Center, 115 West Park Street, Auburndale

For More Information contact Amy Palmer, AICP at the City of Auburndale Community Development Department at 863-965-5530 or APalmer@auburndalefl.com or visit www.auburndalefl.com/lakes-district-plan for additional information on the workshop.
