City of Auburndale

The Lakes District Implementation

“Virtual” Community Presentation

The City of Auburndale will be hosting a webinar on The Lakes District on Monday, August 24, 2020 at 6:00 pm. The purpose of the webinar is to kick-off an online community survey that will be available to complete through September 30, 2020. The webinar will provide an overview of The Lakes District, and instructions on how to complete the online survey tool. The online survey will ask for input and ideas on implementing The Lakes District Vision Plan. The map below depicts the area of The Lakes District.

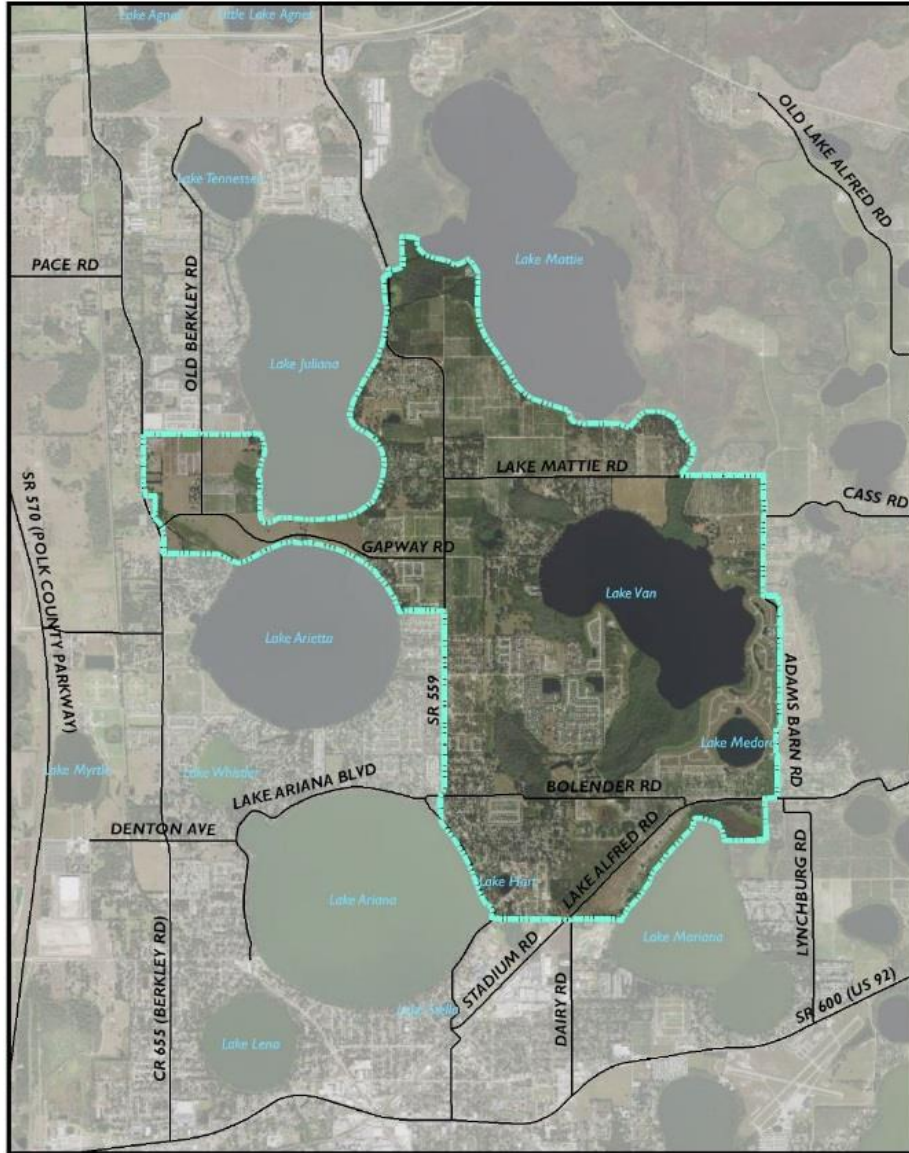

The City has adopted The Lakes District Strategy and Vision to provide a vision for this part of the City & County over the next 10 to 15 years. The Vision Plan addresses growth within this gateway area including elements such as land use, traffic, infrastructure, and parks. The Vision will be implemented through a series of amendments to the City’s Comprehensive Plan and Land Development Regulations.

To sign up for the webinar, please go to the The Lakes District webpage on the City’s website. The webinar will also be recorded for later viewing. The Survey Instrument will be available from August 24 through September 30, and a link will also be found on the City’s website.

Meeting Date/Time: Monday, August 24, 2020 at 6:00 p.m.

Location: Zoom Webinar

Sign-up Instructions: www.auburndalefl.com/lakes-district-plan/
